

SPORTS PREMIUM ALLOCATION PLAN 2023-24

For 2023-24, our total Sports Premium funding is £17,790.

Aim: The overall impact from Sports premium is to enhance children’s opportunities to access high quality sports and PE and support their overall well-being.

Monitoring & Evaluation: The PE and sports leader in school will develop and monitor the actions on the plan. Spending and Impact will be monitored and reported to governors on a regular basis.

Item/Project	Cost	Objectives/Aims
Extra Sports coaching sessions – after school clubs, cricket coaching, gymnastics	£2500	For children to experience quality sports coaching.
<p>Impact: Children have received quality sports coaching from Active Tameside which has enabled all children to access a range of sports across the PE curriculum. Specialist teaching has given quality first teaching in all areas and has meant children have accessed quality teaching in a range of sports.</p> <p>After school clubs have been well attended – on average 25/30 children each week. Children have enjoyed the sessions and have had a broad range of experiences of different sports.</p> <p>Profile of all PE and sport has been increased across school. Children enjoy PE lessons, and more children are involved in extra-curricular activities involving sport.</p> <p>PE staff and coaches have ensured that PE equipment is adequate for lessons and coaching sessions.</p> <p>Progression plans in place for PE coaches and class teachers to follow for curriculum PE.</p>		
Little Bikers	£1200	To provide EYFS children with early bike riding skills (Nursery and Reception)
Bikeability	(funded)	To provide KS2 children with basic cycling skills (level 1) and then further road safety skills ad confidence on single lane roads with junctions (Level 2)
<p>Impact: All nursery and Reception children have taken part in the Little Bikers course learning to ride balance bikes. The children have learnt skills of bike riding very quickly – most children not having ridden a bike previously. Children made excellent progress throughout the course and gained much confidence in riding their bikes.</p> <p>All Year 5 children have accessed the Bikeability programme. Starting numbers: 20 non riders; 10 riders. Finishing numbers: 30 Level 1; 12 Level 2</p>		
Inter school tournaments and competitions	£1500	For all KS2 children to take part in inter school sporting events

<p>Impact: Intra school competition has continued. More children are keen to get involved in sporting competitions and tournaments. School has taken part in football, cricket, dodgeball tournaments.</p>		
Wellbeing learning and awareness raising events (e.g. Fun, Friends and Fitness)	£1200	To provide experience/taster sessions of different sports/physical fitness, including supporting pupils' awareness of healthy lifestyles
Freddie Fit	£500	Delivering effective sessions to support mental and physical health
Boxercise	£400	Providing a new experience to promote physical and mental health
<p>Impact: Fun, Friends and Fitness week centred around health and wellbeing supporting children's awareness of healthy lifestyles. Children made healthy snacks and tried different healthy foods as part of finding out a out healthy choices. Freddie Fit and Boxercise gave the children two different experiences of fun ways to keep fit and an understanding of the importance of exercise.</p> <p>Skipping ropes for lunchtime activities were purchased after the Boxercise session.</p> <p>Paul Sturgess, Britain's tallest man and the world's tallest professional basketball player did basketball sessions with each class. He also talked to the children about being proud of who you are and using your skills to be the best you can be. Mental health and wellbeing was a key focus. (£600)</p> <p>Year 5 and Year 6 have received basic First Aid training and have a basic knowledge of what to do in an emergency.</p>		
Provision of sports, health & well-being training opportunities for staff	£1000	To improve subject knowledge and awareness of importance of health and well being
<p>Impact: all staff have received training on Trauma Informed practice and Metacognition. Staff have a good understanding of children behaviours and strategies to manage dysregulation. Staff have received refresher training for the Zones of Regulation and Building Learning Powers to support children's mental health and wellbeing. Senior staff have received Paediatric First Aid training.</p>		
Kick individual mentoring	£2750	Using sport and dance to engage and support pupils to become more resilient and self-confident
<p>Impact: 10 children have received individual mentoring from the Kick Mentor. Each child has had a 30-minute session once a week based on individual needs building on conversations and progress within each session. Physical and mental health have been a key focus for the children. Each child has shown progress in their individual records; being able to articulate feeling and emotions and demonstrating an awareness of self-regulation.</p>		

Further develop outdoor and adventurous activities	£2500	To contribute to the year 6 residential trip and to enhance outdoor and adventurous activities.
<p>Impact: £2500 to subsidise the Residential trip to Hollowford Outdoor Activity Centre. Total cost of the trip: £*** All children attend the residential trip and enjoy the activities at the centre. Hollowford is particularly favourable for the location and excellent facilities. Castleton is close enough for the children to revisit with family and provides the children with a taste of the Local Peak District. All children in Year 6 attended the residential.</p>		
Lunchtime play leaders	£3000	To encourage physical exercise and outdoor games at lunchtimes.
<p>Impact: School staff are used to provide lunchtime supervision including playleader duties. School staff supervise and facilitate play with the children including football matches, skipping games, roleplay, basketball skills, individual skipping skills, construction, ball skills. Children are provided with different equipment each day and are encouraged to try different things. Children have been more active at lunchtimes and are now initiating their own play more rather than relying on adult led play. Children are developing resilience and cooperation skills as a result of playing games together and also developing self-regulation and metacognition. They are using their growth mindset and perseverance in learning new skills and using the equipment. Children are showing increased confidence.</p>		
TOTAL	£17,850	Total amount of sports grant spent: £***
