

Successful Learners

Areas of Learning

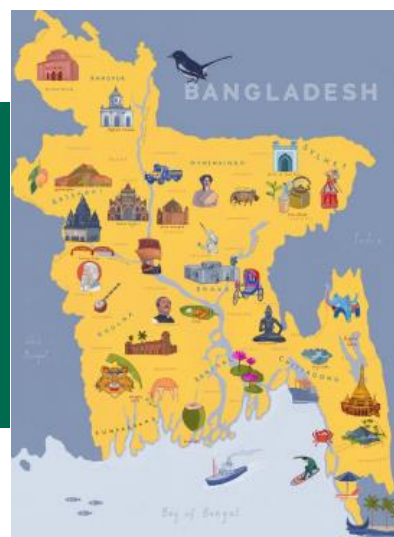

As Geographers we will be learning about Bangladesh and how it compares to the UK. We will compare and contrast this environment to where we live now. We will consider the main similarities and differences in the physical and human geography between the UK and Bangladesh.

As scientists we will be continuing to learn about 'Uses of everyday materials.' We will be exploring materials, describing their properties and learning to classify them.

As mathematicians we will be learning about measuring and comparing lengths as well as measuring mass, temperature and capacity. We will also be learning about money and learning to find change. We will then be learning about multiplication and division. We will need to be able to multiply and divide by 2, 5 and 10.

As readers we will be continuing to have daily phonics lessons to consolidate our recognition and application of sounds. Within our school day we will also be exposed to a variety of texts that relate to our current learning, including non-fiction, fiction, poetry. We will also be developing written comprehension skills.

How is Bangladesh similar and different to the UK?

Successful Learners

As writers we will be exploring the text 'The Magic Finger' and we will be developing our skills of writing composition. In our SPAG lessons we will be looking at different punctuation including questions marks and exclamation marks, and how we can include these in our writing. We will be working hard this term to form our letters the correct size.

As active children we will be studying dance. We will rehearse and perform simple dance sequences.

As information technologists we will be learning about questioning and how computers and databases use questioning to define and provide information.

As artists we will be exploring Bangladeshi artwork.

Religious Education we will be thinking about how symbols help us to understand the Easter story. We will think about why Easter is the most important festival in the Christian calendar.

**Christian Value
Humility**

We will be exploring the value humility. We will learn what it means to show humility and why being humble is so important. We will learn from the Bible stories we have read and use our talents to help others.

Spiritual development

We will provide frequent opportunities to explore, express and share feelings and build opportunities to do this within lessons. Children will consider unity in the world and ways that this can be achieved. Children will express feelings of thankfulness and awe towards the world and how amazing it can be.

Building Learning Powers- Reciprocity.

We will be focusing on developing our reciprocity this half term. We will learn to be aware of our own strengths and weaknesses and how these can be used to work both independently and collaboratively. As part of this we will aim to empathise with others and see things from their point of view. Most importantly we will look to each other when we need help as part of our learning partners.

Welcome back! We had such a busy half term before the holiday! This half term the children will have lots of new learning opportunities that I know will interest them greatly.

READING- It is very important that your child is reading at home! The benefits of reading with an adult daily have a huge impact. Please ensure the children are bringing their reading books into school to change them as often as possible! They can bring their reading books into school in their bookbags and change their books every day. We will also be continuing to visit the school library every Thursday too.

HOMEWORK- this is given out on a Friday and is due in the following Wednesday. School also runs a homework club after school on a Monday which your child can attend if they are unable to do their homework at home. Please ask if you need any more details about this.

SPELLINGS- As part of Year 2's weekly homework they will be sent home 10 spellings to learn each week for a test on Friday.

PE - the children have a lesson with the sports coach every Monday. Please ensure that they have their PE kit in school and that all items are named.

Thank you so much for your ongoing support, please feel free to pop in whenever you have any questions.
