

Communication with parents

We, at St George's, promote Parent Partnerships and value the relationships that we have with parents. By working together we can support the child in the best possible way.

We have an Open Door policy, where parents can speak to staff when the need arises, however, it may be better to arrange an appointment in some instances.

Parents have termly opportunities to discuss their child's progress. For children with Special Educational Needs (SEN) staff work alongside parents to set personalised targets and meet regularly to discuss progress, provision and next steps.
