

# Transition

We understand that change can be difficult for some children, especially those with Special Educational Needs (SEN) and so at St George's we offer a high level of support during transition. Each class experiences three days of transition to their new class during the summer term, where they can get to know their new environment and the new staff they will be working with.

Some children, identified by school as needing more support, will have the opportunity to visit their new class on more occasions with a member of support staff.

Children moving to High School also experience transition days and staff work closely with High School staff to pass on information regarding individual children.
